17. For international electives, please comment on the cultural experience (food, dress, local customs, etc.) that you enjoyed or found challenging.

The culture of medicine in India was a little different to get adjusted to. It is very similar to how medicine was here in the 1990's. After navigating that, it was quite an amazing learning experience and I was able to see a lot of disease processes that are not present in the United States

- 18.* Overall, this was a valuable experience that I would recommend to my
