

International Elective Post Travel Reflection

Write a 3-page paper (double spaced, Calibri 12 pt font) or create a powerpoint presentation (minimum 10 slides) that fully addresses each of the following questions. Once complete, email the paper/presentation to medkeck@usc.edu. This assignment is due one week following your return date. *Please note: your responses may be shared in future with Keck students interested in international study.*

1. Discuss how this experience helped you accomplish the three goals you outlined in your International Elective Petition. Which [Keck Educational Objectives](#) did each goal meet and how?
 - a. If you completed a petition that did not ask about three goals you planned to accomplish during this elective, answer the following question instead: what goals did you anticipate accomplishing through this elective? Did you accomplish these goals, how, and which [Keck Educational Objectives](#) did each goal meet?
2. What expectations did you have going into this experience? Did any of these change following completion of the elective?
3. What new skills or information did you obtain through this experience?
4. What surprised you about this experience, medically related or not?
5. What did you find challenging about this experience?
6. How will you use what you gained from this experience in your medical career?
7. What advice do you have for students interested in completing an international elective in general, and with the same institution you visited?
